Report of Principal and School Improvement Council

Cherryvale Elementary School is committed to improving student achievement by holding high expectations for all students. Our curriculum continues to be standards-driven with the staff receiving continuous opportunities for staff development training in best practices. This year, we focused on using data to drive instruction. Many of our students take advantage of our after-school programs and morning study groups. During this time, teachers provide enrichment activities to reinforce and challenge student learning. Content is based on the needs of the students. MAP scores and PASS results aid us in determining the individual and/or class areas of weakness. Parents have been actively involved in school activities such as Family Reading Night, Science Night, and PTA Math Night. Parents are also offered training and materials for working with their child through our Parent Resource Center. Topics covered include reading, math, science, and test taking strategies. The media center is available for parents to search websites and print materials that can be used if no computer is available in the home. To ensure that we continue to provide the best for our students, our site based planning team reviews our school plan each year and makes recommendation for modifications. The plan is shared with our Title I /School Improvement Council, parents, and community members to receive suggestions from them as well. Our students come to school at many different academic levels and have various social and emotional needs. We are proud to have a staff that works so diligently to address the needs of each individual student. We are looking forward to another year of "Learning with Love and Laughter."

Tina Shaw, School Improvement Council Chairperson

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
